```
Microsoft.Office.Interop.Word.Application wb = new Microsoft.Office.Interop.Word.Application();
Microsoft.Office.Interop.Word.Document xDoc = wb.Documents.Add(); xDoc.SaveAs("C:\\Users\\John
Doe\\Desktop\\0105.doc"); xDoc.ActiveWindow.View.Type =
Microsoft.Office.Interop.Word.WdViewType.wdPrintView; wb.Quit(); Marshal.FinalReleaseComObject(wb);
object nullObj = System.Reflection.Missing.Value; Microsoft.Office.Interop.Word.Range range =
xDoc.Content; range.Find.Execute(ref nullObj, ref nullObj, ref nullObj, ref nullObj, ref nullObj,
ref nullObj, ref nullObj, ref nullObj,
```

---

Corrigee By Abdul Kalam of India received a 6 years prisoners in a corruption case. Jul 30, 2012 As a high school student a young Abdul Kalam was interested in science and technology. He was also a member of the Satyagraha movement (๒๒๒๒). His inquiry made him to realize the need for a system to facilitate the exploration of sources of water in India. He started practicing agriculture and worked on the cultivation of rubber, for which he developed new methods. The methods he developed were unique and led to the development of more efficient rubber plantations. During the war era he worked in the Indian army and worked in forging the AT-6 light bomber and Kala bombs, which were used for target practice and drop tests, respectively. He later applied his new technology in India to develop the first indigenous guided missiles and was involved in many defence projects. Aug 9, 2019 Used by Abdul Kalam for the India's first supersonic flight. Mar 20, 2020 A young Abdul Kalam with Professor Jagadish Chandra Bose, Professor J. C. Bose and Professor B. R. Ambedkar. It was an important moment for India's Independence struggle. ส่งรายนี้ไปยังสถานศาล การตรวจไอหวนชั้น เดวิด คุณส่งไม่ได้?
