Braun-Falco's dermatology [Walter H C Burgdorf; Otto Braun-Falco:] This book will be of great interest to students and practitioners in dermatology. Text is clear and easy to follow. The authors deserve credit for their careful and thorough review of the literature. This edition of Braun-Falco's Dermatology is the first of the new series of publications that are in print and available to the physician. It is recommended for both students and practitioners of the medical specialty. -- Richard L. Bennett, MD "This book will be of great interest to students and practitioners in dermatology. Text is clear and easy to follow. The authors deserve credit for their careful and thorough review of the literature. This edition of Braun-Falco's Dermatology is the first of the new series of publications that are in print and available to the physician. It is recommended for both students and practitioners of the medical specialty." -- Richard L. Bennett, MD, professor of dermatology, NYU College of Dentistry, Brooklyn, New York "So far, we have seen only two books that are sufficiently comprehensive to be the starting point for any dermatologist." -- Dr. Arthur Kaplan, former chairman, Department of Dermatology, Harvard University "For young doctors it is a good place to start and to have at hand for quick reference. It is an excellent compilation of information." -- Dr. A. S. "The [current] edition is of great value to me. It will be of great value to dermatologists, whether on the staff or fellows, as well as to the more advanced specialist. It will serve as an integral part of a dermatologist's career." -- Paul M. "Braun-Falco's Dermatology continues to provide dermatologists with an indispensable tool, which, in addition to the text of any of the current dermatology books, is indispensable for review in a dermatologist's practice. It continues to provide a guide for dermatologists, from those on the staff as well as those in the fellowship training programs, and it is a welcome addition to the dermatologist's library." -- Dr. David L. Rabinowitz, Professor of Dermatology, NYU College of Dentistry, Brooklyn, New York "The [current] edition is of great value to me. It will be of great value to dermatologists, whether on the staff or fellows, as
