UPDATE: * Fixed the floating progress bar on the bottom of the screen. OTHER THINGS YOU NEED TO KNOW: - HiResMod is not a program that will change the original image. - If you want to use your own image or a photo from your own computer, you need to make sure you have an image in.jpeg format. HiResMod lets you change images in.JPG format on the Desktop and Menu of Win 7 This is the little known function of HiResMod. Normally, the new image displayed on the desktop is bigger than the old image so you have to drag the icon to the desktop to overwrite the old icon. With HiResMod, this is not the case. The new image is smaller and you can replace the old one without having to touch the icon. WHAT IS hiResMod? HiResMod is a simple program that lets you change an image without touching it. If you have a large desktop that you would like to decorate, but don't want to touch
