6.1.5 Password, login or register using the 'Forgot Password' link below.Q:
Python/PyQt5 sort date from database I'm writing a small chat app, which connects to the database and retrieves the (sorted) date from a database column named "time". In the GUI, I want to list the recently sent messages in chronological order, so I'm using the sorted() function. However, the output

in the GUI is not sorted, and when I move the cursor over the list, the newest date is shown, even if I'm looking at an older message.

```
from PyQt5
import QtCore, QtGui,
QtWidgets
def send(m):
    global
    Time, msgCount
    Time =
m.sender.dateTime
    msgCount =
    m.messageCount
    chatlist.append(msgCount)
    for
    chat_msg in sorted(chatlist):
    print(chat_msg)
```

While here, the

chatlist and the messages are displayed as ordered by date, in the GUI the date is not sorted.
