The game will be released in May for PlayStation 4 and Xbox One. The PC version will follow at a later date. Last year's game was held back to coincide with the 23rd anniversary of the film, and it was widely praised by critics for its high-octane gameplay. In the game, you can choose between Ford Mustang GT and Ford Shelby GT350, and one of four game characters - Mr. The company has already developed a separate update for the game. The update will add a host of new features. The new features will include the capability to add additional car customizations, and NFS Car Secrets which will give users a chance to compete against other players' racing skills. The release date for the game is three days after that of the movie, and EA has stated it will not touch the storyline. EA has chosen to support the movie in more ways. Part of the company's strategy will include releasing a 30-minute promotional trailer ahead of the movie's opening in theaters. The trailer was announced by CEO Andrew Wilson during his Twitter appearance. The film's director, Peter Berg, also
